Social Worker OR Counselor Options

Kyle the creative social worker

About the Author

Hi there, I'm Kylie! I have several years of experience working with EC-8th grade - at the same time! I have a Master's in Social Work and Bachelor's in Psychology. In college, I worked and taught classes at a chain craft store. I'm all about data and use research to guide my lessons, but I also use my creative knowledge to think outside the box and help students connect to material on a deeper level. I hope you enjoy this resource as much as my students and I have!
